Cricket & Turf Tournament Management System

Description:
This system will manage player registration, tournament organization, score updates, and turf cricket bookings to provide a streamlined platform for local cricket enthusiasts and turf owners.

Key Features:

1. User Registration & Authentication

- Secure player registration and login using email or phone number.
- Role-based access for players, team managers, turf owners, and admins.

2. Tournament Management

- Create, manage, and organize local tournaments (knockout, league formats).
- Automated fixture scheduling based on team registrations.
- Live score tracking and tournament bracket visualization.

3. Player & Team Management

- Individual player profile creation with skills, stats, and history.
- Team creation with player assignments and captain selection.
- Real-time team roster updates during tournaments.

4. Turf Cricket Management

- Turf owners can list available turfs with pricing, capacity, and amenities.
- Turf booking system for practice sessions or private matches.
- Calendar integration for turf availability and booking management.

5. Automated Fixture Scheduling

- Smart scheduling algorithm to avoid overlaps and balance match timings.
- Real-time updates when fixtures are changed due to weather or other conditions.

6. Score Updates & Match Reports

- Real-time score updates for ongoing matches.
- Detailed post-match reports including player stats, MVP, and best moments.
- Shareable match summaries for social media.

7. Payment & Booking Integration

- Online payments for turf bookings, tournament registrations, and entry fees.
- Secure payment gateway for transactions.

8. Leaderboards & Analytics

- Leaderboard for players and teams with top scorers, best bowlers, etc.

- Performance analytics and visual stats for players and teams.

9. Communication Features

- Notifications for match updates, turf bookings, and tournament alerts.
- In-app messaging between organizers, players, and turf managers.

Innovative Suggestions:

1. **Fantasy Player Drafting:**
   Allow captains to draft players for custom turf leagues.
2. **Turf Ratings & Reviews:**
   Players can rate and review turfs to help others select the best options.
3. **Match Highlights Upload:**
   Option to upload and share match highlights directly on the platform.
4. **Gamified Player Achievements:**
   Badges for top players (MVP, Best Bowler) to incentivize better performance.
5. **Weather Forecast Integration:**
   Real-time weather updates to help organizers reschedule matches when needed.
